Creating Chapters in Advanced Editing Mode and in the Content Screen

In this tutorial, you can follow the step-by-step procedure for creating chapters in your videos with Nero Video.

Chapters are sections in a video title that you can access on your player using the Back and Next buttons without having to fast forward or rewind. Initially, each video title contains only one chapter. You can add new chapters manually or automatically.

The following requirement must be fulfilled:

▶ You have added the desired video clips to your project.

To add chapters to your videos manually, proceed as follows:

1. If the Content screen is displayed:
   1. Highlight the desired video title in the content area.
   2. Move the slider on the scroll bar in the preview area to the position where the new chapter should begin.
   3. Click the Chapters button and select the Add chapter entry from the pop-up menu.
      ➔ The chapter is created, a chapter mark is set on the scroll bar in the preview area, and the chapter is added to the chapter list in the content area. In addition all existing chapters can be displayed ⬇️ or rendered invisible ⬆️ as desired with the aid of the buttons.
   4. Repeat the last two steps to add more chapters.

   Nero Video can also create chapters automatically.
   If you have joined several video clips into one video title and want Nero Video to create a chapter mark for each video clip within the video title, click the Chapters button and select the Add chapter for each video entry from the pop-up menu.
   If you want Nero Video to detect chapters automatically within a video title, click the Chapters button and select the Auto-detect chapters entry from the pop-up menu.

2. If the video editing screen (Advanced Editing mode) is displayed:
   1. Position the timeline slider on the timeline and click the Create Chapter Marker button in the right border area of the content area.
      ➔ A position marker for a new chapter is displayed above the time scale.
   2. Repeat the previous step to add more chapters.
      ➔ A position marker is added for each chapter. If you add chapters between existing ones, the consecutive numbering is adapted.
      ➔ You have added chapters to your videos.
